About Me

My interest in development started back in 2003 when I decided to create my own mod of a videogame titled Argentum Online. This experience taught me a little about Visual Basic & Servers!

My main goal these days is to keep building accessible, inclusive systems and outstanding digital experiences in a multidisciplinary team.

Professional Skills

- HTML 5 & CSS 3
- JavaScript(ES6), TypeScript
- React JS, Hooks, Context
- Next JS, Gatsby JS
- API / REST API
- Firebase, MySQL
- Git / Git Bash / GitHub
- Visual Studio Code / Sublime

Hi, my name is

Guido Julian Gomez. Front End Developer.
